## Race Driver Grid Recognize Controller Zz

I resorted to xpadder Still, I think it's awesome that it worked out for you!Flipin\_jackass My rumble pad works perfectly in GRID.. I even pasted some configuration files from Dirt 2 hoping it would do something, but nothing.. Wii Will Not Recognize Controller. Wii Will Not Recognize ControllerYea, very lucky My Logitech Rumblepad doesn't work at all.. i suppose it is the rumble pad 2 though, which might make a difference I so far haven't found one game (that supports gamepads) that didn't work with my rumblepad 2.. I tried the in game menu, edited the the xml/text file, patches, etc Nothing worked.

Race Driver Grid Recognize Controller Plus Drive 5v Race Driver Grid Recognize Controller Mods.. You should also ensure that no schemes or profiles are running for your controller.. 6/1/2017 0 Comments Project CARS Logitech G25/G27 settings Discussion in 'Project CARS' started by Bram, Apr 23, 2015.
